Earth Day/Week Show & Tell

Updated: May 1

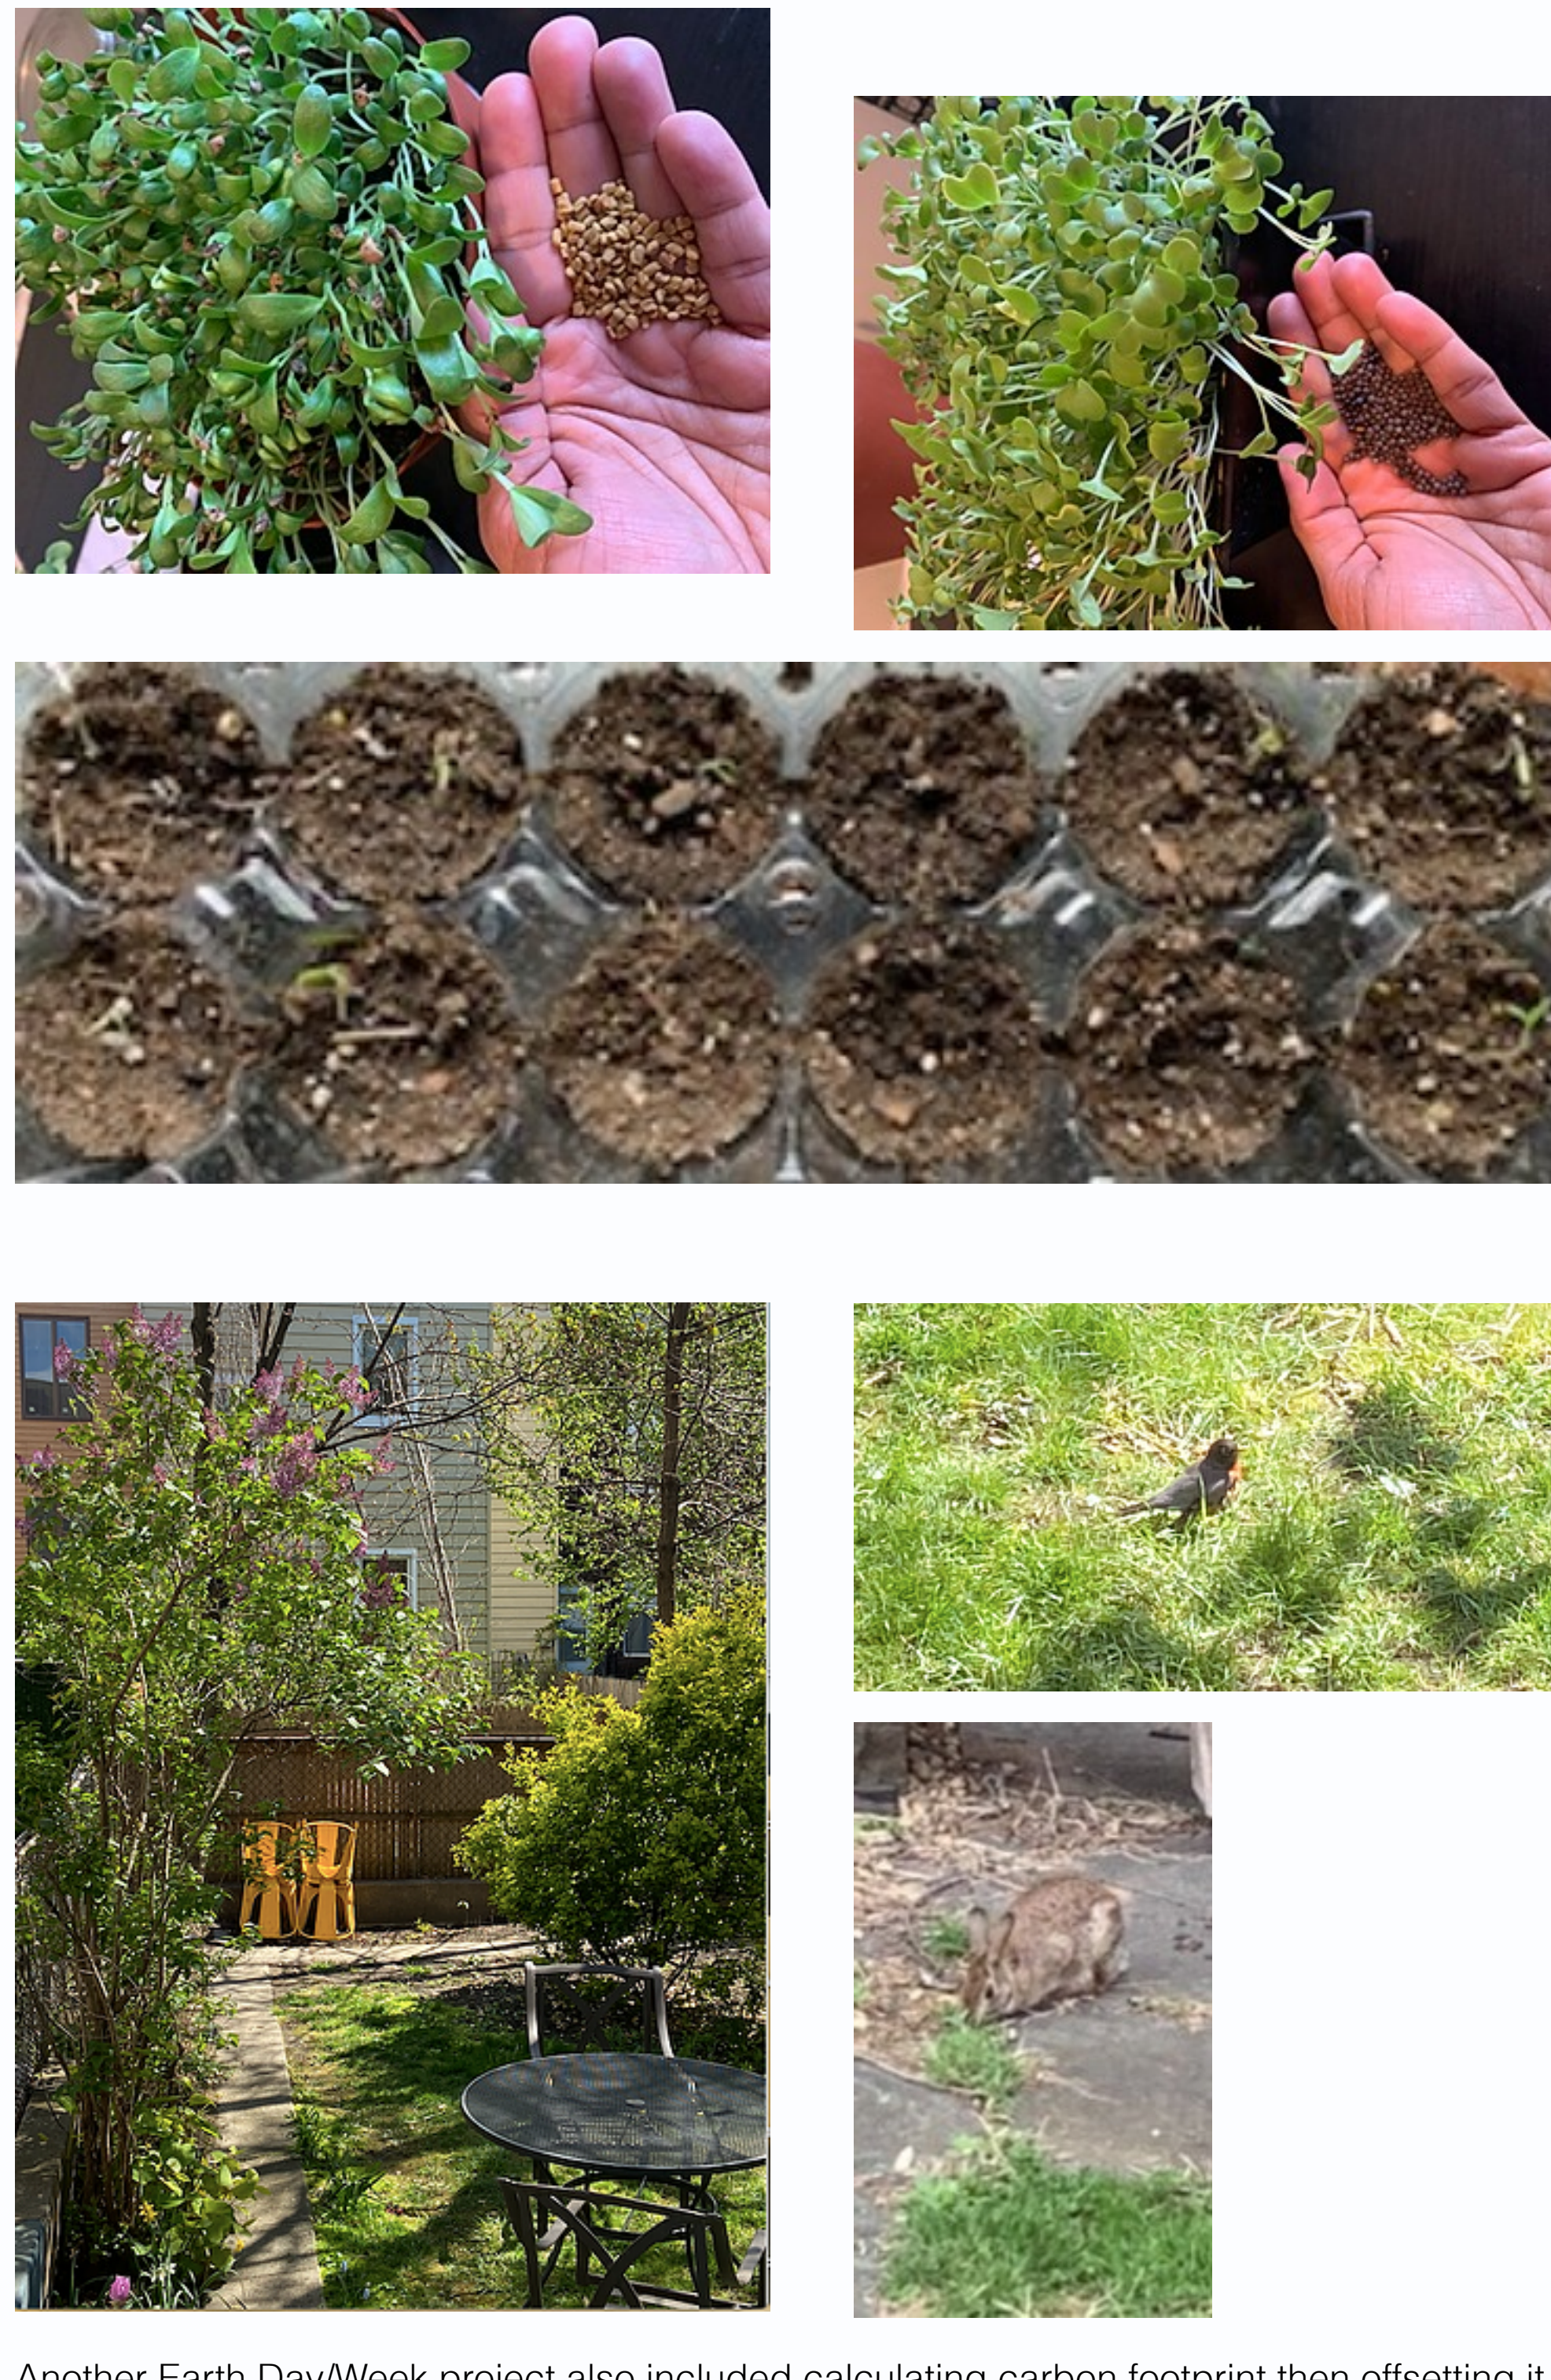

The social distancing and quarantine from COVID19 did not stop Eco Ambassadors from celebrating Earth Day 2020 in their homes, kitchens, gardens and backyards.

On Friday, April 24th, few Eco Ambassadors got together for a casual Show & Tell to share what they did during Earth Day (April 22, 2020 and week of) to celebrate the environment, nature and our Earth.

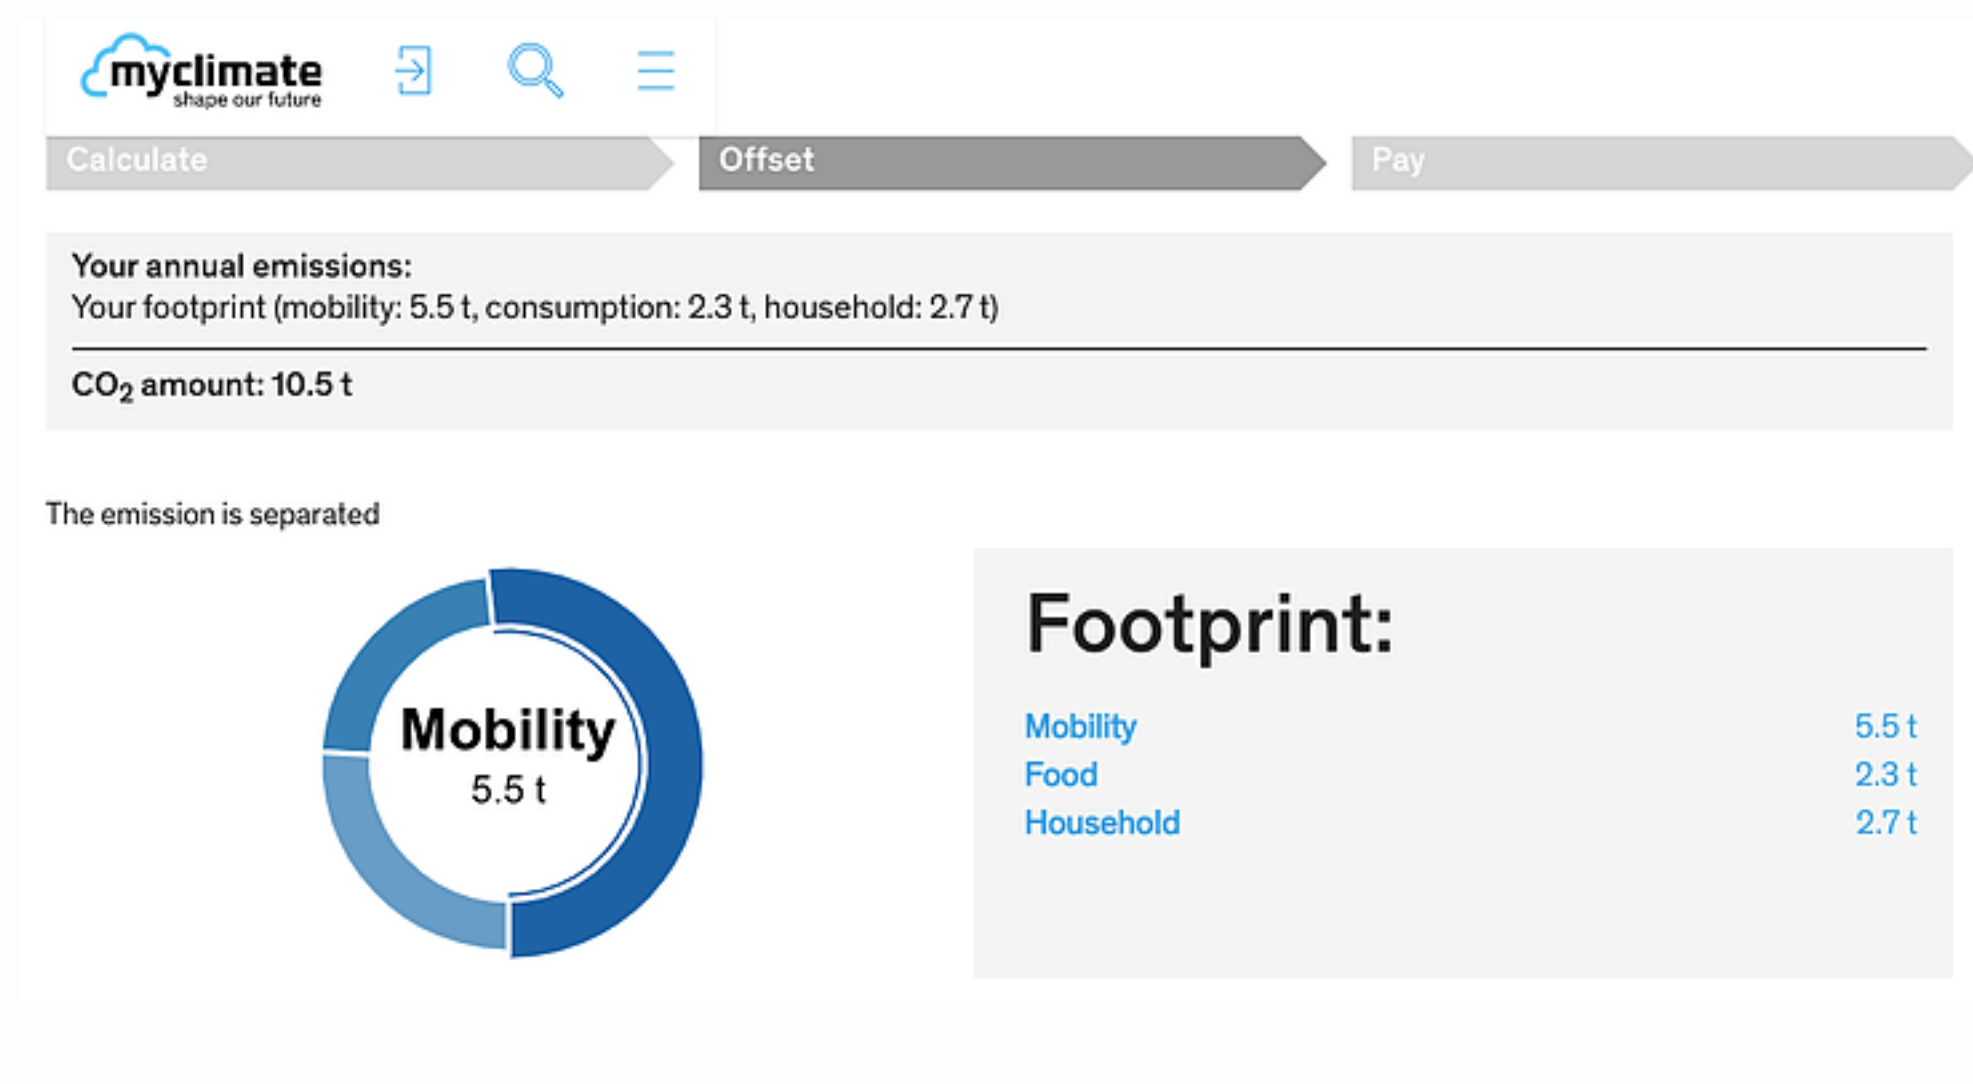

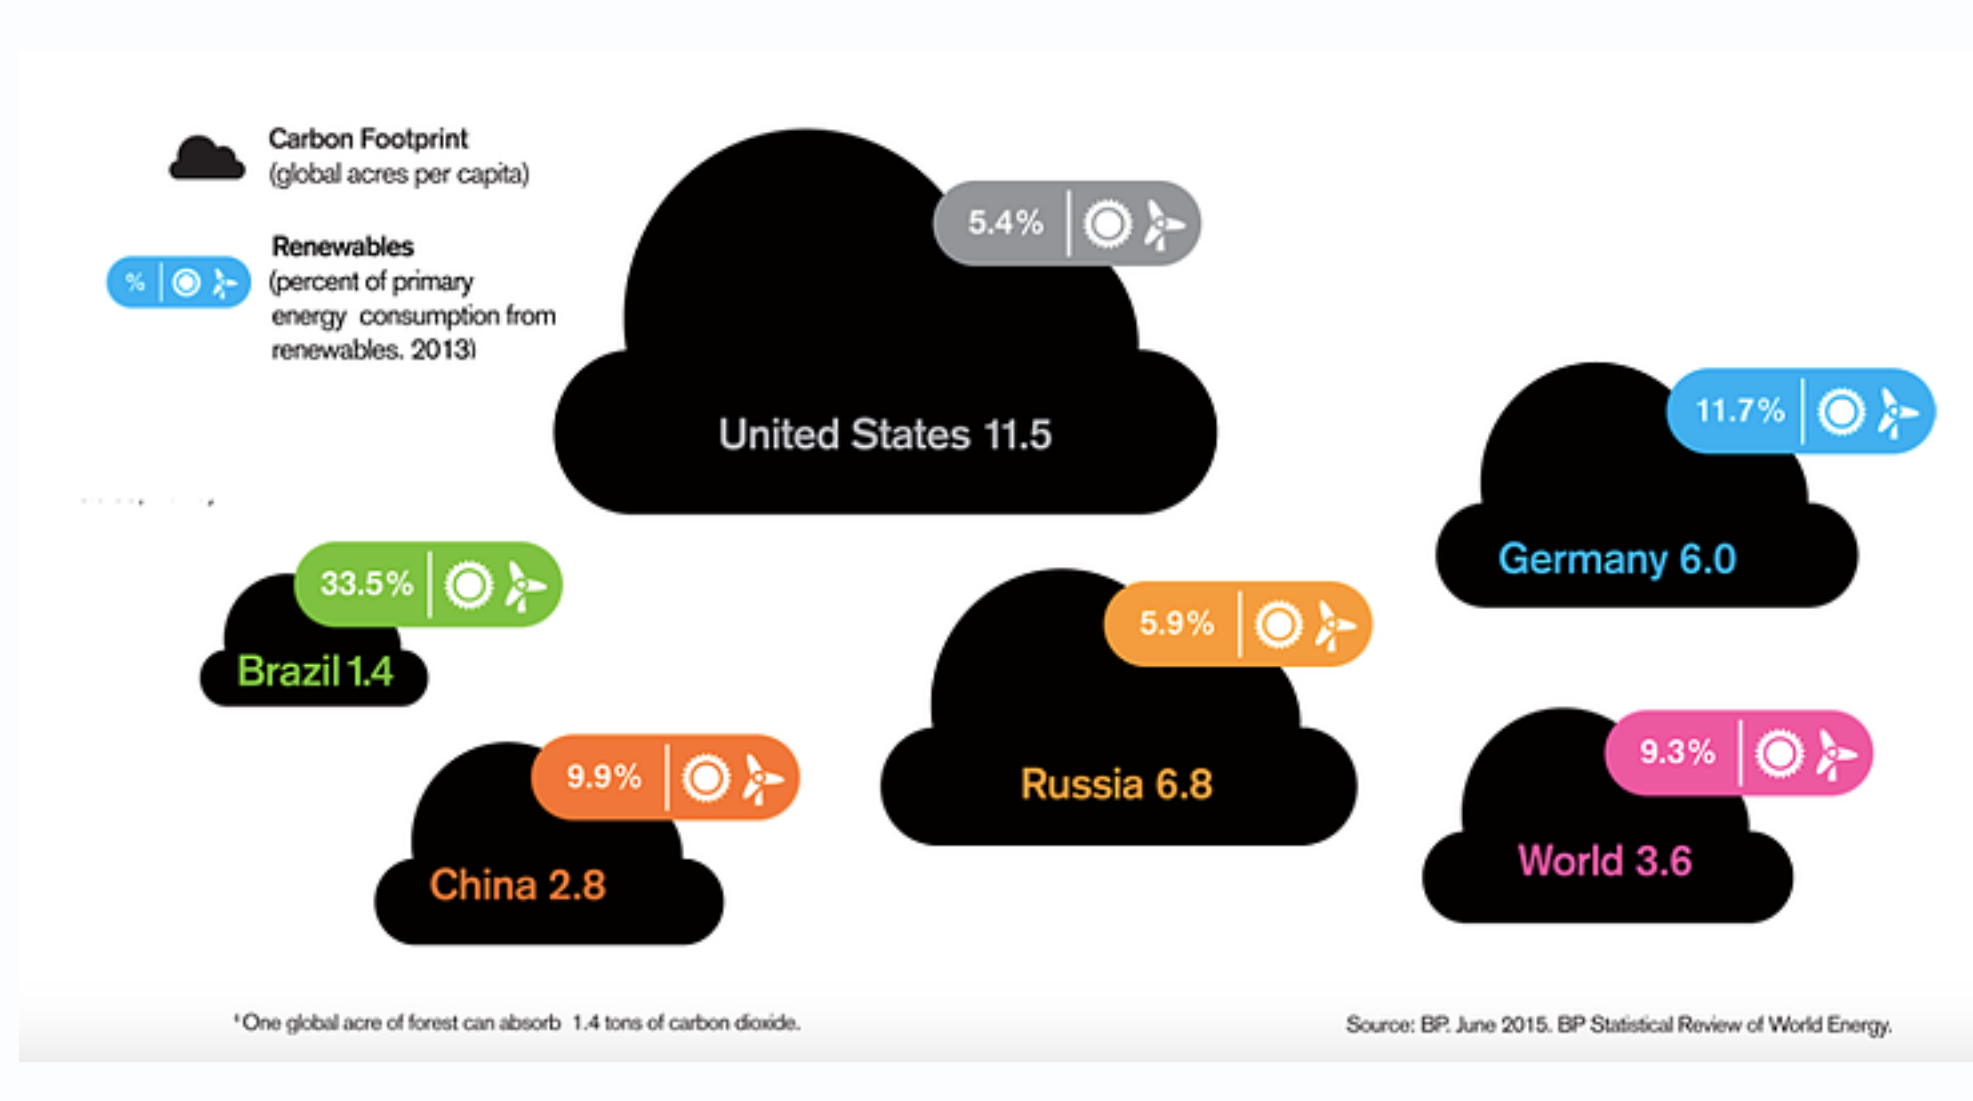

Our youngest Eco Ambassador Arjun drew what a beautiful Earth looks like to him with some strategies to protect the Earth.

Eco Ambassador Ishaan and our Eco Ambassador program staff shared respective home gardening projects to plant flowers, tomatoes, fenugreek seeds and mustard seeds, as well as various observations made in the yard to examine various birds, animals and plant varieties.

Another Earth Day/Week project also included calculating carbon footprint then offsetting it by donating to organizations and businesses working on eco-friendly and renewable energy projects to reduce carbon footprint.

Here are some resources that were used for carbon footprint information:
<https://www.myclimate.org/>
<https://www.epa.gov/ghgemissions/global-greenhouse-gas-emissions-data>
<https://www.footprintnetwork.org/our-work/ecological-footprint/>

And to end, sharing a wonderful song Tara had shared with her sons to celebrate Earth Day:

HAPPY EARTH DAY/WEEK 2020 !
 KEEP YOUR LOVE FOR THE EARTH STRONG ALL YEAR ROUND!
